DETAILED ACTION

Allowable Subject Matter

1. Claims 1-4, 6, and 8-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-4, 6, and 8-12 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 8 wherein each unit delay of the first delay line (810) has a first delay which is shorter than the second delay, each unit delay of the second delay line (820) has a second delay which is shorter than the third delay and each unit delay of the third delay line (830) has a third delay, wherein if the delay locking operation is not achieved in the first delay line (810) the second delay line (830) delays the clock signal (CLK) to output the delayed clock signal into the first delay line (810) and if the delay locking operation is not achieved in the second delay line (820) the third delay line (830) delays the clock signal (clk) to output the delayed clock signal into the second delay line (820) in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
